One-stop service - software and hardware modernisation for an innovative manufacturer of fitness food

www.best-body-nutrition.com

About SIGMA

The SIGMA Chemnitz GmbH parent company is an experienced system house and has been offering a wide range of professional services in the fields of information technology, management and organization since 1990. The group of companies has had ERP experience since 1993. SIGMA Software und Consulting GmbH has been maintaining an intensive partnership with SAP in the field of medium-sized business solutions since 2007. All our consultants, developers and sales staff are certified by SAP and continuously undergo extensive training. We love SAP Business One!

Challenge & goals

The software solution currently in use was no longer able to completely cover the requirements of the growing company. Therefore, the decision was made to search for a new future-proof standard solution for all company divisions. The main focus was on warehouse logistics and the mapping of the various sales channels.

About Fitnessshotline

Fitnessshotline GmbH based in Auerbach in the Vogtland region supplies classic sports nutrition, nutritional supplements and the relevant accessories to fitness studios and those in training under the Best Body Nutrition brand. The company puts special focus on the highest possible quality and first-class composition of the products. This is ensured by the company's own development department. The products are sold online and through pharmacies, body stores, fitness studios and a large number of distribution partners.

The solution - SAP Business One

The decision was made in favour of SAP Business One as the ERP solution and SIGMA Software und Consulting GmbH as an experienced service partner. In addition to the ERP selection, the IT infrastructure was also put to the test. Last year, the Microsoft domain was transferred and the Microsoft Exchange groupware service was introduced. New virtualised servers from Fujitsu are being used and a modern security solution is being established with Sophos. Due to the introduction of the SAP AddOn SIGMA Mobile Lagerverwaltung (mobile warehouse management), an area-wide WLAN is necessary. A survey of the areas was carried out in advance to clarify the exact hardware requirements and the technical prerequisites. We are looking forward to this sporty client ...
