About SIGMA

The SIGMA Chemnitz GmbH parent company is an experienced system house and has been offering a wide range of professional services in the fields of information technology, management and organization since 1990. The group of companies has had ERP experience since 1993. SIGMA Software und Consulting GmbH has been maintaining an intensive partnership with SAP in the field of medium-sized business solutions since 2007. All our consultants, developers and sales are certified by SAP and are regularly attended to further training courses. We love SAP Business One!

About Schatteria

Schatteria GmbH supplies and installs individually manufactured terrace roofs, awnings and slat roofs for outdoor use. In addition to its headquarters in Dresden, the company currently has five showrooms throughout Germany, which offer a wide range of products including individual consultation.

Schatteria combines three different SAP products

Challenge & Goals

As a young start-up company, Schatteria GmbH had not used any ERP software previously. In search of an end-to-end ERP solution that fully maps and digitalises all business processes, the decision was made in favour of the SAP Business One cloud variant and the implementation partner, SIGMA Software und Consulting GmbH.

The solution

The focus of the digitisation project is the introduction of SAP Business One, the ERP software for mid-sized businesses. The company has also opted for SAP Field Service Management for the deployment planning of service technicians. Schatteria GmbH is expecting more transparency and time savings in the planning of all deployment-relevant resources, especially through the use of the digital planning board.

In addition, the SAP Sales Cloud will be used as a CRM and marketing tool. This is to control all marketing measures and lead management and integrate them into the ERP landscape.
